Dear Jim,

I can say unequivocally that your program "Compose Yourself" was the finest program for young people that I have experienced. The music, the texts and the combination of it all was enlightening, entertaining and educational. It is not an easy task to combine all three of these elements – "Compose Yourself" accomplishes this feat. I would love, in the future, to do anything new that you have in this vein.

Congratulations and I hope this work can be heard throughout the United States – if not the world.

Sincerely,

Jon Robertson, DMA

Dean
